Corrugated Plastic Sheets - Data Sheet

- Material	Polypropylene Co-polymer / High density polyethylene
- Extrusion Die	Twin-wall structure
- Colors	Standard: Natural, White, Grey, Black Optional: Opaque white, Yellow, Green, Blue, Orange, Tan, Pink, Purple Custom colors are available upon request
- Thickness	2mm-10mm
- Grams/m^2	250gsm - 2500gsm
- Max Width	2450mm
- Length	Made to order
- Tolerance	Thickness: ±0.15mm Density: ±5% Width: ±2mm Length: ±5mm
- Recyclability	100% recyclable
- Print ability	Screen printing Flatbed digital printing Flexo printing Painting
- Welding ability	Ultrasonic welding Hot wind welding
- Process ability	CNC router cutting Die cutting Creasing Rotary cutting
- Features	Excellent resistance to water, grease, acids and part of chemical liquids
- Optional Grades	Corona treated UV resistant Anti-static Conductive Flame retardant
- Applications	Signage substrate Floor protection Waterproofing material Pallet layer pads for bottles and cans Picking bins Reusable boxes
